USFS Basic Skills Events

USFS Basic Skills Event Information

ELIGIBILITY:

The USFS Basic Skills events in this competition are open to all skaters who are current eligible (ER 1.0) members of either the Basic Skills Program and / or are current full members of U.S Figure Skating. To be eligible, skaters must have submitted a membership application or be a member in good standing. Members of other organizations are eligible to compete but must be registered with the host Basic Skills Program / Club or any other Basic Skills Program / Club.

USFS event eligibility will be based on skill level as of October 9th, 2011 (the closing day for entries.) All SNOWPLOW SAM and BASIC SKILLS levels BASIC 1 – BASIC 8 must skate at the highest level passed, and NO official US Figure Skating tests may have been passed including MIF (Moves in the Field) or Individual Dances. Skaters in other USFS events may skate at the highest Free Skate level passed OR one level higher BUT not both levels in the same event during the same competition.

USFS membership and eligibility will be verified. If, for whatever reason, the Competition Organizing Committee discovers that a skater has been placed in an incorrect level, the Chair and Referee will have the option to move the skater into the proper level, even if this has to be done the day of the competition. This will ensure that every event is as fair as possible to the competitors.

JUDGING: The USFS events will be judged according to the rules and regulations set forth in the U.S. Figure Skating Basic Skills Competition Manual.

RULES:

The USFS events in this competition will be conducted in accordance with the 2011-2012 US Figure Skating Basic Skills Competition Manual and the 2011-2012 US Figure Skating Rules and Standards.

Description of ISI Events

New as of 2009: Open Freestyle levels

Designed to make it easier for USFS skaters to compete in ISI events, the Open Freestyle events are open to all ISI Freestyle 1-10 skaters and / or to all skaters who have passed any ISI Open Freestyle level test. There are no required maneuvers for the Open Freestyle competition events. ISI skaters who have passed the traditional Freestyle tests may participate in BOTH the traditional Freestyle 1-10 events AND in Open Freestyle events. Duration times for the new levels may be longer than the traditional Freestyle program duration, but since there is never any penalty in ISI competitions for skating under the prescribed duration time, the difference in duration will not be a factor in the overall quality or judging of the program if the same routine is used for both category entries.

Solo Programs:

Tot 1-4: Must be 5 years of age or younger as of November 11th, 2010. Programs are 1 (one) minute in length and must include the required test maneuvers from their level. There is no extra content.

Pre-Alpha Thru Delta: Must include one additional maneuver from FS 1. Programs are 1 (one) minute in length. Duration will be judged.

Freestyle 1-10: Program duration and required maneuvers as per the 2010 ISI Skaters and Coaches Handbook. For the safety of all skaters, no backward spirals will be allowed during warm-up. Skaters are limited to 3 attempts per required maneuver during their program; the best attempt will be judged.

Props, if used, are limited to those which can be hand-carried or pushed onto or off of the ice by the skater in one 30 second trip. Skaters can have assistance at the ice door as they move from the door to their starting position – and from the ending position back to the ice door in 1 trip within 30 seconds. Before bringing props into the facility, skaters must report to the registration desk to receive information concerning prop storage. Props may not be left in the lobby area and must be removed immediately after the event. Lloyd Center Ice Rink is not responsible for props left in the rink.
